UNIVERSITY NEWS ITEMS. President Edwin A. Alderman, who was advised by his physicians several months ago to suspend work and go abroad, has just returned to America after a sojourn in England, France, and Holland, and is spending a few weeks at present with his wife and little son in

Dr. Richard Henry Whitehead, dean of the Medical Department, returned to the University yeaterday, after two or three weeks in the woods of no thern Maine.

Professor William Minor Lile, who was in Europe last year on leave of absence, has returned to the University, and will resume his duties at the open-ing of the next session, September 10, as professor of law and as dean of the University Law School.

It is likely that the number of stu-dents in the law school the coming session will be unusually large, since all who enter aft r the next session will be required to spend three years in residence

work for graudation.

A great need of the University at present, though it is one not frequently thought of, is the need for a large numthought of, is the need for a large number of additional rooms in the college as atudent dormitories. Hundreds of young men have written for rooms in college during the summer, only to be told that every room in college during the summer, was already engaged. Since the State has so well provided for its young men by reducing the University fee, by building an excellent dining hall for the special use of students, and by other means too numerous to mention, the important matter of rooms mention, the important matter of rooms at low rates of rent for every man who desires one should not be overlooked.

There are many imitations of DeWitt's Carbolized Witch Hazel Salve but jost one original. Sold by W. F. Creighton & Co.

### The Sultan Suspected.

Constantinople, Aug. 17.—Constantinople was filled with sinister comments today simed at the sultan, as a result of the death yesterday of Redjeb Pashs, the minister of war in the new cabinet, which was reported as due to appoplaxy, but which is believed today to have been a

The death of Redjee, regardless of its cause, has brought to public attention the dissentions that have already cropped out in the new ministery and the seem-ing impossibility of the sultan's working in harmony with the cabinet officials in

every question affecting the country.
Despite the sultan's accep'ance of the new conditions forced upen him and his attempts to appear happy in the face of being shorn of power, he is in a most evil mood and the young Turks are already accusing him of conniving to oaerthrow the new constituttion and to return to the other regime of absolutism

just as soon as possible.

The sultan thinks Grand Hasha Vizier Kimmil really engineered the movement which forced him to grant the natitution. Like several o ministers, Kimmil was but o few months ago a fugitive from the auttan's ven-

THREE HUNDRED POUND

A remarkable snake of the Python species, found only in Java and Borneo, has just been brought to the United States by the British steamship Hudson, which arrived at Point Breeze to load for China and Japan. The snake, which was sold to John Edwards, of Philadelphia is 24 feet long and weighs 300 pounds. For years it had been known by the natives of Borneo to live and feast on human beings and snimals in the great forest of the interior. It had been known to catch a wild horse and after crushing it to death to devour the re-

mains at one meal. It was finally captured by drugging the remains of a wild horse, which it devoured and was soon put to sleep. Captain Fenton, the master of the Hudson, stated that the big reptile was stowed in the hold of his reseal for three months. the hold of his vessel for three months; during which time it ste nothing, but simply slept. The Chinese cook now and then saw signs of life, but Captain Fenton warned him of the consequence if he did not keep away from that part of
